

SPORTident impressions of the IOF World Cup Final 2013

in Baden, Switzerland

Picture 1: Gate mode configuration of the BS11 BL station at the finish line enables a very accurate measurement of finish times.

Picture 2: This sportsman wears the SIAC at his finger as usual. At the event some participants even wear the SIAC under their headband.

Picture 3: Reading the SIAC data record with the standard download station BSM7 after the finish.

Picture 4: Sprint relay start.
